### **DECONCENTRATION POLICY**

#### **PUBLIC HOUSING:**

In an ongoing effort for the Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

**INCOME MIX TARGETING:** To meet the requirements of the Act and subsequent HUD regulations, at least 40 percent of families admitted to public housing by the Housing Authority must have incomes that do not exceed 30% of the area median. If 40% or more of the Housing Authority units are occupied by families whose incomes do not exceed 30% of the area median income, this requirement shall be considered as being met.

**PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES:** The Housing Authority will not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain projects or certain buildings. The Housing Authority will review the income and occupancy characteristics of the housing projects and the buildings of each project to ensure that a low-income concentration does not occur.

**DECONCENTRATION:** The Housing Authority will make every effort to deconcentrate families of certain income characteristics within the Authority development. To achieve this, the Housing Authority will offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the Housing Authority will not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept application and

place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix.

The Housing Authority will track the income mix within each project as an effort to avoid a concentration of higher or lower income families in any one building or development.

The HUD FY 99 Income Limits and Fair Market Rent Data show the thirty, fifty and eighty percents of the Median Income per number in a household are as follows:

# Person	30% of Median	50% Very Low Income	80% Low Income
1	\$8883	\$14,805	\$23,688
2	10,152	16,920	27,072
3	11,421	19,035	30,456
4	12,690	21,150	33,840
5	13,705	22,842	36,547
6	14,720	24,534	39,254
7	15,736	26,226	41,962
8	16,751	27,918	44,669

On 12/1/99, the Authority had 553 of its 558 public housing units filled as follows:

% of median	# families	%
30	432	78
50	100	18
80	21	4

Project	30% of Median		50% of Median		80% of Median		Total

NC16-02	56	78	11	15	5	7	72	100
NC16-03	39	81	7	15	2	4	48	100

NC16-08	96	84	14	12	4	4	114	98
NC16-09	40	91	3	7	1	2	44	100
<b>Totals</b>	432		100		21		553	

As shown by the above chart, the Authority exceeds the QWHRA of 1998 requirements for the entire Authority as well as for each development.

On 12/1/99, the Authority had 34 families on its waiting list. Of the total, 16 (or 47%) had incomes under 30% of the median, 11 (or 32%) had incomes above 30% but below 50% of the median, and 7 (21%) had incomes above 50% but less than 80% of the median income.

Each project has greater than sixty-five (65) percent of the families with thirty (30) percent or less of the median income. The waiting list has greater than forty-five percent of families with thirty percent or less of the median income.

Monitoring will be conducted to confirm that at least forty (40) percent of all leased units will be within thirty (30) percent of median income.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than thirty (30) percent of median income in the projects noted above in order to avoid concentrations of very low-income families in the projects as per the requirements of the QHWRA of 1998.

## **SALISBURYHOUSING AUTHORITY**

### **DECONCENTRATION POLICY**

#### **PUBLIC HOUSING:**

In an ongoing effort for the Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

**INCOME MIX TARGETING:** To meet the requirements of the Act and subsequent HUD regulations, at least 40 percent of families admitted to public housing by the Housing Authority must have incomes that do not exceed 30% of the area median. If 40% or more of the Housing Authority units are occupied by families whose incomes do not exceed 30% of the area median income, this requirement shall be considered as being met.

**PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES:** The Housing Authority will not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain projects or certain buildings. The Housing Authority will review the income and occupancy characteristics of the housing projects and the buildings of each project to ensure that a low-income concentration does not occur.

**DECONCENTRATION:** The Housing Authority will make every effort to deconcentrate families of certain income characteristics within the Authority development. To achieve this, the Housing Authority will offer incentives for eligible families having higher incomes to occupy

dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the Housing Authority will not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept application and place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix.

The Housing Authority will track the income mix within each project as an effort to avoid a concentration of higher or lower income families in any one building or development.

The HUD FY 99 Income Limits and Fair Market Rent Data show the thirty, fifty and eighty percents of the Median Income per number in a household are as follows:

# Person	30% of Median	50% Very Low Income	80% Low Income
1	\$8883	\$14,805	\$23,688
2	10,152	16,920	27,072
3	11,421	19,035	30,456
4	12,690	21,150	33,840
5	13,705	22,842	36,547
6	14,720	24,534	39,254
7	15,736	26,226	41,962
8	16,751	27,918	44,669

On 12/1/99, the Authority had 553 of its 558 public housing units filled as follows:

% of median	# families	%
30	432	78
50	100	18
80	21	4

Project	30% of Median		50% of Median		80% of Median		Total	
	#	%	#	%	#	%	#	%

NC16-02	56	78	11	15	5	7	72	100
NC16-03	39	81	7	15	2	4	48	100
NC16-04	9	90	1	10	0	0	10	100
NC16-05	34	69	15	31	0	0	49	98
NC16-06	77	79	19	19	2	2	98	100
NC16-07	40	67	18	30	2	3	60	100
NC16-08	96	84	14	12	4	4	114	98
NC16-09	40	91	3	7	1	2	44	100
Totals	432		100		21		553	

As shown by the above chart, the Authority exceeds the QWHRA of 1998 requirements for the entire Authority as well as for each development.

On 12/1/99, the Authority had 34 families on its waiting list. Of the total, 16 (or 47%) had incomes under 30% of the median, 11 (or 32%) had incomes above 30% but below 50% of the median, and 7 (21%) had incomes above 50% but less than 80% of the median income.

Each project has greater than sixty-five (65) percent of the families with thirty (30) percent or less of the median income. The waiting list has greater than forty-five percent of families with thirty percent or less of the median income.

Monitoring will be conducted to confirm that at least forty (40) percent of all leased units will be within thirty (30) percent of median income.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than thirty (30) percent of median income in the projects noted above in order to avoid concentrations of very low-income families in the projects as per the requirements of the QHWRA of 1998.

This is a comprehensive program designed to eradicate drug-related problems and criminal activity in Salisbury’s public housing communities. It provides additional law enforcement and community policing services, in conjunction with resident participation and strong management practices to stop criminal activity associated with supplying illegal drugs, while at the same time offering drug prevention and intervention services to eliminate the demand for illegal drugs and the problems they create. The comprehensive program strategy includes strong collaborative relationships for increased law enforcement and substance abuse prevention and intervention efforts, a detailed program evaluation plan, coordination with Welfare Reform efforts, use of housing authority facilities, and “One Strike and You’re Out” policies. It targets both current and long-term solutions to the immediate, urgent and sustained problems in and around the premises of Salisbury’s public housing. The goal of SHA’s PHDEP is to reduce crime, particularly drug related crime in SHA’s communities so that residents have a decent and safe place to live and raise their families.

## **E. Target Areas**
